

**State Agencies' Action Plan Status Report
for Fiscal Year 2000**

Action ID	Action Item Title	Lead Agency	FTE	Biennial Total	Tasks Planned for Fiscal Year 2000	Status
HYDROPOWER AND FISH: PURSUING OPPORTUNITIES						
Hyd-1	Ensure that operation of hydropower projects protect and reduce/mitigate impacts on salmon and its habitat	WDFW	5	843,600	Review major hydropower, water supply and flood control dam projects. Recommend habitat protection measures, mitigation measures and fish passage measures.	Worked on 127 major projects. Made substantial progress to insure that 22 hydropower projects and major dams include protection measures and mitigation of impacts to salmon and habitat.
Hyd-2	Condition hydropower projects with instream flow	ECY	1	199,800	Participate and intervene in Federal Energy Regulatory Commission (FERC) licensing consultation processes, advocate for studies to evaluate instream flow needs and establish instream flow requirements, and condition Section 401 Water Quality Certifications with appropriate instream flow requirements.	WDFW and ECY recommended to FERC instream flow conditions on two hydropower projects (Cowlitz and White River).
Hyd-3	Participate in implementation of mitigation measures	WDFW	6.7	984,800	Participate in implementation of mitigation measures for salmon.	WDFW has participated in implementation of mitigation measures on 36 already negotiated hydropower projects.
Hyd-4	Monitor hydropower project for compliance	WDFW	0.2	29,800	Monitor Federal Energy Regulatory Commission (FERC) hydropower projects to ensure that dam operations are in compliance with their licenses.	No monitoring for compliance due to a lack of funding for this activity.
Subtotal			12.9	2,058,000
